This exploded perspective view shows the front panel assembly 14' in relation to the main chassis 10. The front panel 14' is a rectangular plate with three circular openings 20' for the speakers. It is shown being aligned with the chassis. The top of the front panel features a mounting rail 190 with a series of slots 191. A bracket 193 is shown attached to the rail. The front panel is secured by screws 192. The speakers 20' are shown being inserted into the openings 20' of the front panel. The speakers have a circular face 86' and a mounting flange 24'. The front panel is also shown with a central rectangular opening 194. The chassis 10 is shown with a top plate 195 and a bottom plate 196. The front panel 14' is shown being aligned with the chassis. The speakers 20' are shown being inserted into the openings 20' of the front panel. The speakers have a circular face 86' and a mounting flange 24'. The front panel is also shown with a central rectangular opening 194. The chassis 10 is shown with a top plate 195 and a bottom plate 196. The front panel 14' is shown being aligned with the chassis. The speakers 20' are shown being inserted into the openings 20' of the front panel. The speakers have a circular face 86' and a mounting flange 24'. The front panel is also shown with a central rectangular opening 194. The chassis 10 is shown with a top plate 195 and a bottom plate 196.
